

XVergabe

**Many eTendering Platforms—
One Bid-Client**

Agenda

- Initial Situation
- What is XVergabe?
- Process, Status and Outlook

Initial Situation

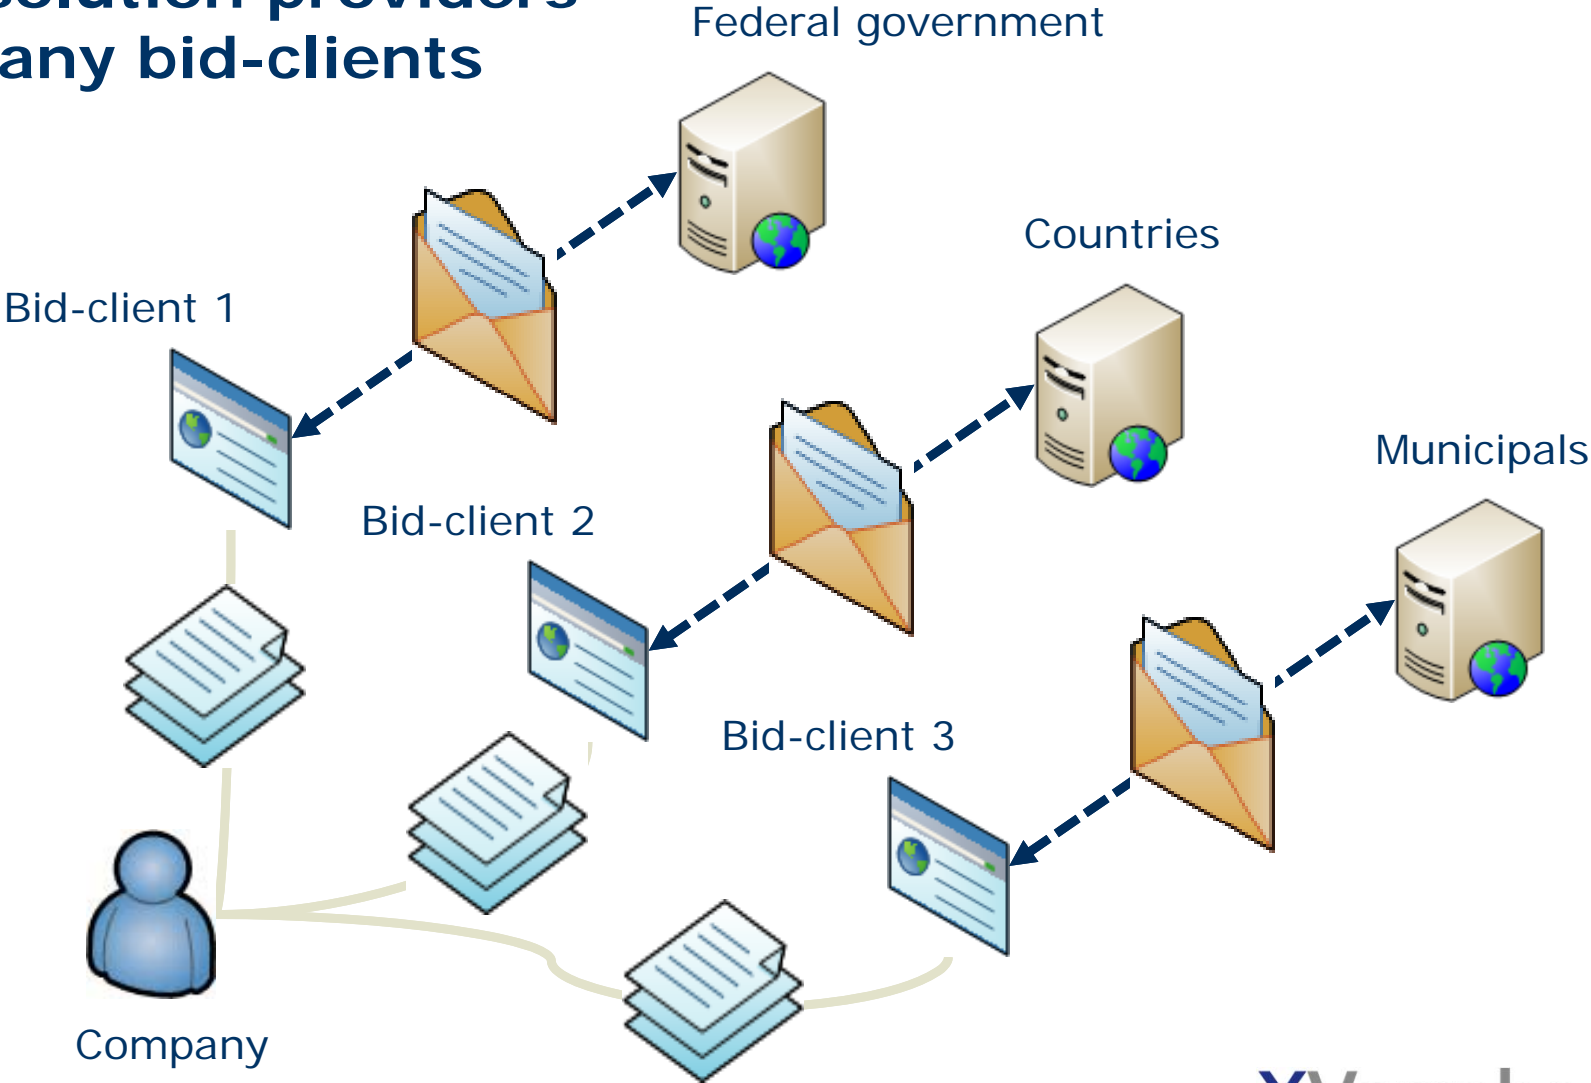

Initial situation in general

1. Many solution providers
2. Different technologies
3. Incompatible bid-clients (Browser- or software based)
4. No standard for the exchange of notices

Result: For bidders the access to electronic tendering is far away from the optimum

Initial situation in Germany

Many solution providers –
Many bid-clients

Savings according to a study comissioned by the BMWi*, 2008

Proposal	Companies	Authorities	Total
Eliminating paper and enhancing eTendering	316,7	1019,0	1335,7
Using uniformed electronic forms	651,4	163,3	814,7
Total	968,1	1182,3	2250,4

*BMW i=Federal Ministry of Economics and Technology

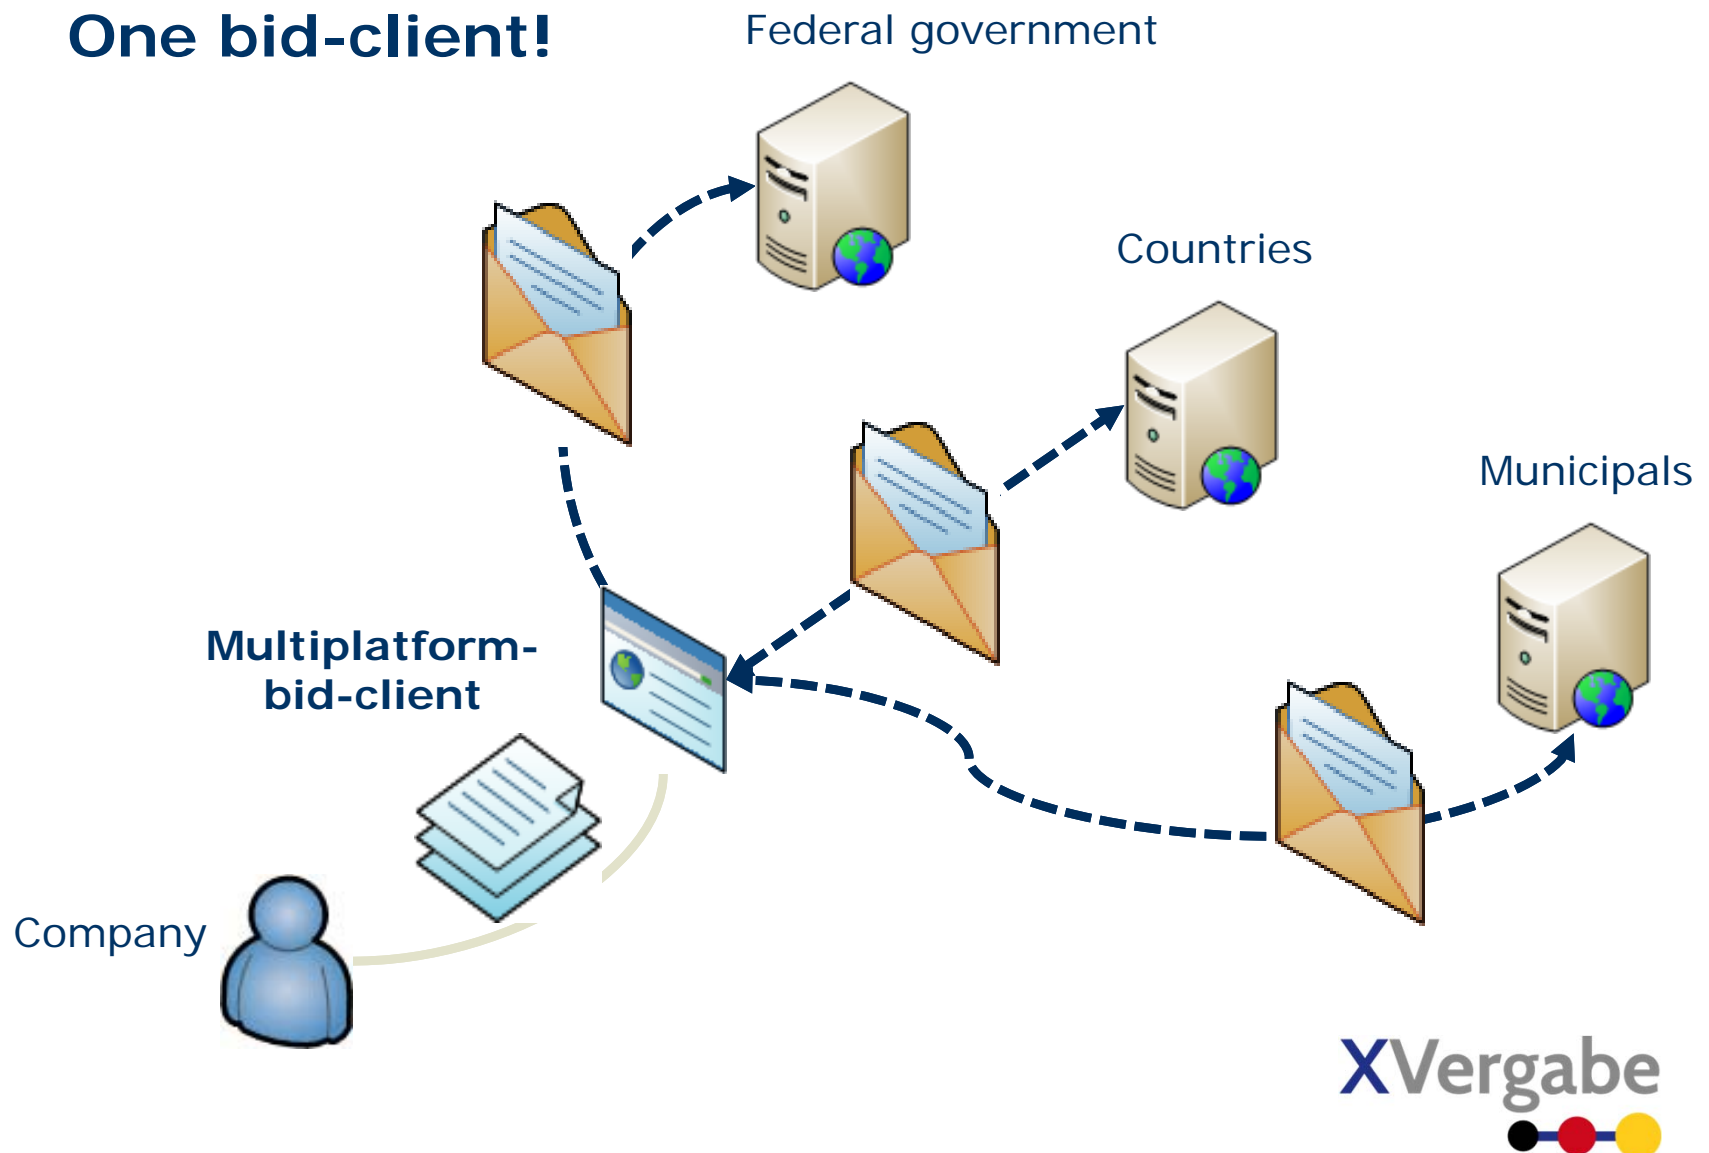

What is XVergabe?

The Goal of XVergabe is ...

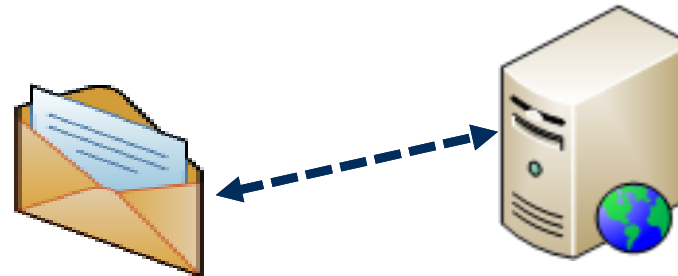

- **Promotion of eTendering through the harmonization of interfaces**
 - Interface for exchanging notices
 - Interface between bid-client and eTendering platforms

Goal of X Vergabe at a glance

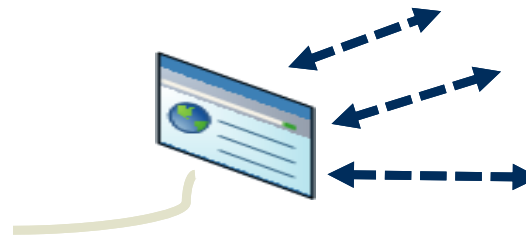

Many solution providers –
One bid-client!

- **1. WG-Notice** : Definition of schemas and methods to replace notices

- **2. WG-Interface**: Definition of an interface between solution and MPBC- consideration of authentication

- **3. WG-Forms**: Definition of forms – consideration of signature

Process, Status and Outlook

- **WG-Notice:**
 - Finished in May 2010
- **WG-Interface:**
 - Agreement with solution providers
 - to finish the specification
 - and implementing it until the end of 2011
 - The implementation is done in four milestones
 - All milestones are tested
 - The second milestone is currently being implemented

WG-Interface: Milestones in 2011

Milestones	Deadline
M1 Authentication/ Inquiry	Mo 09.05.11 
M2 Meta Information about Procedures	Mo 11.07.11
M3 Sending tenders	Mo 12.09.11
M4 Finishing specification	Mo 14.11.11

2012 will be the begin of a new era for
electronic tendering in Germany!

Many solution providers – One bid-client!
